Sales, Ticketing, Controls

CATCH Seafood Festival has been designed to provide visitors with a variety of food items and Nova Scotia wine options.

Vendors are to limit portions to what might be considered a bite-size or tasting presentation. This allows patrons to experience a wide variety, and it lowers food and product costs.

All menu items shall be served on disposable plates no larger than a generally accepted side plate or portion cup size.

Site Information

The festival will supply water/cleaning station in keeping with standard health regulations.

Security

Festival security will patrol the festival during operating hours. It is recommended that the vendors cover their booths and night.

Product Policies

Vendors are not permitted to sell any items that have not been approved by the Festival Committee.

Each food vendor may submit up to 3 food items to be served at the festival. The festival committee will encourage a diverse and interesting range of seafood items. If you have not submitted a description of the food products in your booth, please write to elderlm@gov.ns.ca before June 15.

Vendor Location & Spacing

Vendor space location will be allocated by the Festival Committee.

Garbage

Vendors are responsible for their individual sites. Garbage must be put in designated areas (including grease and grey water). Vendors must leave site as they found it, clear of all garbage.
